

# SILICONE HEAT TRANSFER COMPOUND Safety Data Sheet

**Section 1: Identification** 

#### **Product Identifier and Other Means of Identification**

Product Name: 860

Other Means of Identification: Silicone Heat Transfer Compound

Related Part # 860-4G, 860-60G, 860-150G, 860-1P, 860-5GPSW

#### **Recommended Use and Restriction on Use**

Use: Non-hardening compound for improving heat transfer across component interfaces

Uses Advised Against: Not available

#### **Details of Manufacturer or Importer**

Manufacturer MG Chemicals 1210 Corporate Drive Burlington, Ontario L7L 5R6 CANADA

MG Chemicals (Head Office) 9347-193 Street Surrey, British Columbia V4N 4E7 CANADA

+1-905-331-1396
 Fax +1-905-331-2682
 E-mail info@mgchemicals.com

E-маіL (Competent Person): <u>sds@mgchemicals.com</u>

#### **Emergency Phone Number**

For hazardous material incidents ONLY (leaks, spills, fires, exposures or accidents) USA or CANADA—Call CHEMTREC at +1-800-424-9300

**For emergencies involving the transport of dangerous goods**; 24/7 service CANADA—Call CANUTEC collect at **+1-613-996-6666** or **\*666** on cellular phones

**SILICONE HEAT TRANSFER COMPOUND** 

#### Section 2: Hazard(s) Identification

#### **Classification of Hazardous Chemical**

#### **GHS Categories**

| Criteria                             |         | Category | Signal<br>Word | Pictograms  |
|--------------------------------------|---------|----------|----------------|-------------|
| Hazardous to the Aquatic Environment | Chronic | 1        | Warning        | Environment |

*Note:* The degree of severity is ranked within each hazard class from 1 (Highest Severity) to up to 5 (Lowest Severity), which is opposite to HMIS and NFPA conventions. Severity category rankings do not allow comparisons between classes.

#### **Label Elements**

| Signal Word | WARNING   |  |
|-------------|---|--|
| Pictograms  | Hazard Statements   |  |
| ¥2          | H410: Very toxic to aquatic life with long lasting effects  |  |
| Prevention  | Precautionary Statements  |  |
| P273        | Avoid release to the environment.   |  |
| Response    | Precautionary Statements  |  |
| P391        | Collect Spillage.   |  |
| Disposal    | Precautionary Statements  |  |
| P501        | Dispose of contents/container in accordance to local/regional/national/international regulations. |  |

#### **Hazards Not Otherwise Specified**

| Other Criteria | Hazard Statements/Precautionary<br>Statement | Signal<br>Word | Pictograms |
|----------------|--|----------------|------------|
| None           | None   | None           | None       |

#### SILICONE HEAT TRANSFER COMPOUND

| Section 3: Composition/Information on Ingredients |                  |           |
|---|------------------|-----------|
| CAS #   | Chemical Name    | %(weight) |
| 1314-13-2   | zinc oxide       | 70%       |
| 112945-52-5                                       | amorphous silica | 3%        |

#### **Section 4: First-Aid Measures**

| Exposure Condition | GHS Code: Precautionary Statement   |
|--------------------|---|
| IF IN EYES         | P305 + P351+ P338   |
| Immediate Symptoms | redness, mild irritation  |
| Response           | Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| IF ON SKIN         | P302 + P352   |
| Immediate Symptoms | mild irritation   |
| Response           | Wash with plenty of water.  |
| IF INHALED         | P304 + P340   |
| Immediate Symptoms | coughing, irritation of the respiratory tract   |
| Delayed Symptoms   | If exposed to metal fumes, chills and fever-like symptoms may occur 4-12 hours after exposure.                  |
| Response           | Remove person to fresh air and keep comfortable for breathing.  |
| IF SWALLOWED       | P301 + P330 + P310  |
| Immediate Symptoms | low toxicity: no symptoms known or expected   |
| Response           | Rinse mouth. Do NOT induce vomiting.  |

SILICONE HEAT TRANSFER COMPOUND

#### Section 5: Fire Fighting Measures

| Extinguishing Media        | In case of fire: Use dry chemical, carbon dioxide, chemical foam, or water spray to extinguish.  |
|----------------------------|--|
| Specific Hazards           | When the product is exposed to very high heat such as welding, this may cause harmful zinc oxide fumes.  |
|                            | Inhalation of fumes may cause metal fever and irritate the respiratory tract. The flu-like symptoms of metal fume fever may be delayed, occurring 4–12 hours after exposure. |
|                            | Prevent fire-fighting wash from entering waterway or sewer system.   |
| <b>Combustion Products</b> | Produces carbon oxides (CO, $CO_2$ ), metal fumes, zinc oxide (ZnO), and formaldehyde.   |
| Fire-Fighter               | Wear self-contained breathing apparatus and full fire-fighting turn-out gear.  |

#### Section 6: Accidental Release Measures

| Personal Protection          | See personal protection recommendations in Section 8.  |
|------------------------------|--|
| Precautions for<br>Response  | Avoid breathing fumes/dust. Remove or keep away all sources of extreme heat or open flames.  |
| Environmental<br>Precautions | Avoid releasing to the environment. Prevent spill from entering drains and waterways.  |
| Containment                  | Contain with inert absorbent (such as soil, sand, vermiculite).  |
| Cleaning                     | Collect waste in a waste container. Sprinkle inert absorbent compound onto spill, then sweep into the container. Wash spill area with soap and water to remove the last traces of residue. |
| Disposal                     | Dispose of spill waste according to Section 13.  |

#### SILICONE HEAT TRANSFER COMPOUND

#### Section 7: Handling and Storage

| Prevention | Keep out of reach of children.  |
|------------|---|
|            | Avoid breathing dust/fumes.   |
|            | Avoid release to the environment.   |
| Handling   | Wear protective gloves/protective clothing/eye protection.                              |
|            | Wash hands thoroughly after handling.   |
|            | Collect spillage.   |
| Storage    | No special storage instructions needed.   |
|            | <b>Recommendation:</b> Keep in a dry and clean area, away from incompatible substances. |

#### **Section 8: Exposure Controls/Personal Protection**

#### **Substances with Occupational Exposure Limit Values**

| Chemical Name    | Country or<br>Vendor | Long Term<br>Exposure Limits<br>(PEL) | Short Term Exposure<br>Limits (STEL) |
|------------------|----------------------|---------------------------------------|--------------------------------------|
| zinc oxide       | ACGIH                | 2 mg/m <sup>3</sup>                   | Not established                      |
| (dust/mist)      | U.S.A. OSHA PEL      | $2 \text{ mg/m}^3$                    | 10 mg/m <sup>3</sup>                 |
|                  | Canada AB            | 2 mg/m <sup>3</sup>                   | 10 mg/m <sup>3</sup>                 |
|                  | Canada BC            | $2 \text{ mg/m}^3$                    | 10 mg/m <sup>3</sup>                 |
|                  | Canada ON            | $2 \text{ mg/m}^3$                    | 10 mg/m <sup>3</sup>                 |
| fumes            | Canada QC            | $2 \text{ mg/m}^3$                    | 10 mg/m <sup>3</sup>                 |
| dust             | Canada QC            | 10 mg/m <sup>3</sup>                  | Not established                      |
| amorphous silica | ACGIH                | Not established                       | Not established                      |
| -                | U.S.A. NIOSH         | 20 mppcf <sup>a)</sup>                | Not established                      |
|                  | Canada AB            | 10 mg/m <sup>3</sup>                  | Not established                      |

*Note:* Ingredients are listed in descending weight contribution order (from greatest to least). The ACGIH1, OSHA (Table Z-1), and Canadian provinces exposure limits were consulted. Limits from RTECS2 database and data from suppliers' SDS were also consulted. Short term exposure limits (STEL) are for 15 min and long term permissible exposure limits (PEL) for 8 h.

a) Millions of particles per cubic foot air, based on impinge samples counted by light-field technique.

#### SILICONE HEAT TRANSFER COMPOUND

#### **Engineering Controls**

| Ventilation | Keep airborne concentrations below the occupational exposure limits (OEL). |
|-------------|--|
|             |  |

Normal ventilation is generally adequate. The zinc oxide and silica dust are bound in the grease matrix and are not available as a respiration hazard under normal conditions.

#### **Personal Protective Equipment**

| Eye protection                | Wear appropriate protective eyeglasses or chemical safety goggles.   |  |
|-------------------------------|--|--|
|                               | <b>Recommendation:</b> Ensure that glasses have side shields for lateral protection.   |  |
| Skin Protection               | For likely contacts, use of protective butyl rubber or other chemically resistant gloves.  |  |
| <b>Respiratory Protection</b> | For over-exposures up to 10 x OEL of dust/fumes, wear respirator such as a half-mask respirator with organic vapor cartridges.   |  |
|                               | Above 10 x OEL, use a positive-pressure, air-supplied respirator or a self-contained breathing apparatus.  |  |
|                               | <b>RECOMMENDATION:</b> Consult your local safety supply store to<br>ensure that your respirator has a NIOSH (U.S.) approved filter<br>cartridges appropriate for the ingredients listed in Section 3.<br>The respirator should be fitted to the employee by a<br>professional. Ensure vapor cartridges are stored in sealed<br>plastic bags when not being used. |  |

#### **General Hygiene Considerations**

Wash hands thoroughly with water and soap after handling.

Quality System Certified to ISO 9001:2015 SAI Global File #004008 Burlington, Ontario, Canada

#### 860

#### **Section 9: Physical and Chemical Properties**

| Physical State       | Solid             | Lower Flammability<br>Limit | Not<br>available        |
|----------------------|-------------------|-----------------------------|-------------------------|
| Appearance           | White paste       | Upper Flammability<br>Limit | Not<br>available        |
| Odor                 | None              | Vapor Pressure<br>@20 °C    | Not<br>available        |
| Odor Threshold       | Not<br>applicable | Vapor Density               | Not<br>available        |
| рН                   | Not<br>available  | Specific Gravity<br>@25 °C  | 2.40                    |
| Freezing/Melting     | Not               | Solubility in               | Insoluble <sup>a)</sup> |
| Point                | available         | Water                       |                         |
| <b>Boiling Point</b> | >300 °C           | Partition                   | Not                     |
|                      | [>572 °F]         | Coefficient                 | available               |
| Flash Point          | 260 °C            | Auto-ignition               | Not                     |
|                      | [500 °F]          | Temperature                 | available               |
| Evaporation          | Not               | Decomposition               | Not                     |
| Rate                 | available         | Temperature                 | available               |
| Flammability         | Not               | Viscosity                   | Not                     |
| (solid, gas)         | available         | @40 °C                      | available               |

a) Metal components are sparingly soluble.

#### Section 10: Stability and Reactivity

| Reactivity                 | None known   |
|----------------------------|--|
| Chemical Stability         | Chemically stable at normal temperatures and pressures   |
| <b>Conditions to Avoid</b> | Ignition sources, excessive heat, and incompatible substances.   |
| Incompatibilities          | Strong oxidizing agents, strong acids  |
| Polymerization             | Will not occur   |
| Decomposition              | Will not decompose under normal conditions. For thermal decomposition, see combustion products in Section 5. |

SILICONE HEAT TRANSFER COMPOUND

#### Section 11: Toxicological Information

#### Summary of Effects and Symptoms by Routes of Exposure

**Eyes** May cause redness and/or mild irritation.

**Skin** May cause mild skin irritation.

**Inhalation** May cause coughing and/or irritation of the respiratory tract.

Inhalation of fumes may cause metal fever and irritate the respiratory tract. The flu-like symptoms of metal fume fever may be delayed, occurring 4–12 hours after exposure.

**Ingestion** Low toxicity: no symptoms known or expected.

**Chronic** No known long term effect.

#### Acute Toxicity (Lethal Exposure Concentrations)

| Chemical Name    | LD50<br>oral | LD50<br>dermal | LC50 inhalation         |
|------------------|--------------|----------------|-------------------------|
| zinc oxide       | 7 950 mg/kg  | Not            | 2 500 mg/m <sup>3</sup> |
|                  | Rat          | Available      | Mouse                   |
| amorphous silica | 3 160 mg/kg  | Not            | Not                     |
|                  | Rat          | Available      | Available               |

*Note:* Toxicity data from the RTECS<sup>2</sup> and ECHA were consulted. The data from supplier (M)SDS were also consulted.

#### SILICONE HEAT TRANSFER COMPOUND

#### **Other Toxicological Effects**

| Skin corrosion/irritation                               | Based on available data, the classification criteria are not met.   |
|---|---|
| Serious eye<br>damage/irritation                        | Based on available data, the classification criteria are not met.   |
| Sensitization<br>(allergic reactions)                   | Based on available data, the classification criteria are not met.   |
| <b>Carcinogenicity</b><br>(risk of cancer)              | Not classified or listed as a carcinogen by IARC,<br>ACGIH, CA Prop 65, or NTP.                                     |
| Mutagenicity<br>(risk of heritable genetic effects)     | Based on available data, the classification criteria are not met.   |
| <b>Reproductive Toxicity</b><br>(risk to sex functions) | Based on available data, the classification criteria are not met.   |
| <b>Teratogenicity</b><br>(risk of fetus malformation)   | Based on available data, the classification criteria are not met.   |
| STOT-single exposure                                    | Based on available data, the classification criteria are not met.   |
| STOT-repeated exposure                                  | Based on available data, the classification criteria are not met.   |
| Aspiration hazard                                       | There are no category 1 components and the kinematic viscosity of the mixture is >20.5 mm <sup>2</sup> /s at 40 °C. |

#### SILICONE HEAT TRANSFER COMPOUND

#### **Section 12: Ecological Information**

Ecological classifications are based on the IMDG/GHS criteria in conjunction with ecotoxicological data from our suppliers, the European Chemical Agency database (<u>http://echa.europa.eu</u>), and other reliable sources.

Contains zinc oxide which is a chronic category 1 solid (non-biodegradable, minimal EC50 of 0.042 mg/L Pseudokrichneriella subcapita) that is harmful to the environment.

The polydimethyl siloxane fluid and amorphous silica are not classifiable as ecotoxic hazards under GHS criteria.

#### **Acute Ecotoxicity**

See chronic ecotoxicity

#### **Chronic Ecotoxicity**

Category 1 Very toxic to aquatic life with long lasting effects Avoid release to the environment Collect spillage

#### Biodegradability

Not readily biodegradable

#### **Other Effects**

VOC exempt (by EPA and WHIMS guidelines) \*VOC = Regulated Volatile Organic Content

#### **Section 13: Disposal Information**

Dispose of contents in accordance with all local, regional, national, and international regulations.

Quality System Certified to ISO 9001:2015 SAI Global File #004008 Burlington, Ontario, Canada

860

SILICONE HEAT TRANSFER COMPOUND

#### Section 14: Transport Information

#### Ground

**Refer to TDG regulations** (Canadian Transportation of Dangerous Goods regulations); **USA DOT 49 CFR** (Parts 100 to 185) **Regulations.** 

Sizes under 450 kg

**NOT REGULATED** in TDG per Special Provisions 99 Sizes 5 kg and under

**NOT REGULATED** in 49 CFR per exception 171.4 (c)(2)

FOR REFERENCE ONLY
UN number: UN3077

Shipping Name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (zinc oxide) Class: 9 Packing Group: III Marine Pollutant: Yes

**Special Provision 99 (2)**: These Regulations, except for Part 1 (Coming into Force, Repeal, Interpretation, General Provisions and Special Cases) and Part 2 (Classification), do not apply to the handling, offering for transport or transporting of less than 450 kg of UN3077, ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S., or less than 450 L of UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S., on a road vehicle or a railway vehicle. The dangerous goods must be contained in one or more small means of containment designed, constructed, filled, closed, secured and maintained so that under normal conditions of transport, including handling, there will be no accidental release of the dangerous goods that could endanger public safety.

#### Air

| Refer to ICAO-IATA regulations.   |                                      |
|---|--------------------------------------|
| Sizes 5 kg and under  |                                      |
| Cat. No. 860-4G, 860-60G, 860-150G, 860-1P  |                                      |
| NOT REGULATED<br>On the air waybill, write<br>"Not Restricted, as per<br>Special Provisions A197" |                                      |
| Special Provision A197: These substances when   | transported in single or combination |

**Special Provision A197**: These substances when transported in single or combination packagings containing net quantity per single or inner packaging of less than 5 L or less for liquids or having a net mass of 5 kg or less for solids, are not subject to any other provisions of these Regulations provided the packagings meet the general provisions 5.0.2.4.1, 5.0.2.6.1.1 and 5.0.2.8.

#### SILICONE HEAT TRANSFER COMPOUND

#### Sea

#### Refer to IMDG regulations.

Sizes 5 kg and under

Cat. No. 860-4G, 860-60G, 860-150G, 860-1P

### **NOT REGULATED** per 2.10.2.7

per 2.10.2.7

**2.10.2.7**: Marine pollutants packaged in single or combination packagings containing a net quantity per single or inner packaging of 5 L or less for liquids or having a net mass per single or inner packaging of 5 kg or less for solids are not subject to any other provision of this Code relevant to marine pollutants provided the packagings meet the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8. In the case of marine pollutants also meeting the criteria for inclusion in another hazard class, all provisions of this Code relevant to any additional hazards continue to apply.

## *Note:* Shipper must be appropriately <u>trained and certified</u> before involvement with the transport of dangerous goods.

Section 15: Regulatory Information

#### Canada

#### Domestic Substance List (DSL) / Non-Domestic Substance Lists (NDSL)

All hazardous ingredients are listed on the DSL/NDSL.

#### Hazardous Products Act (R.S.C., 1985, c. H-3)

The safety data sheet and label comply with the Hazardous Product Act and WHMIS 2015.

#### SILICONE HEAT TRANSFER COMPOUND

#### **Other Classifications**

#### **HMIS® RATING**

| HEALTH:              | 1 |
|----------------------|---|
| FLAMMABILITY:        | 0 |
| PHYSICAL HAZARD:     | 0 |
| PERSONAL PROTECTION: |   |

NFPA® 704 CODES

Approximate HMIS and NFPA Risk Ratings Legend:

0 (Low or none); 1 (Slight); 2 (Moderate); 3 (Serious); 4 (Severe)

**CAA** (Clean Air Act, USA)

This product does not contain any class 1 ozone depleting substances.

This product does not contain any class 2 ozone depleting substances.

This product does not contain substances that are listed as hazardous air pollutants.

EPCRA (Emergency Planning and Right to Know Act, USA, 40 CFR 372.45

This product contains zinc compounds which are subject to the reporting requirements of section 313 Title III of the SARA of 1986 and 40 CFR part 372.

TSCA (Toxic Substances Control Act of 1976, USA)

All substances are TSCA listed.

California Proposition 65 (Chemicals known to cause cancer or reproductive toxicity).

This product does not contain any of the listed substances.

#### Europe

**RoHS** (Restriction of Hazardous Substances Directive)

This product does not contain any lead, cadmium, mercury, hexavalent chromium, PBB's, PBDE's, DEHP, BBP, DBP, or DIBP and complies with European RoHS regulations.

**WEEE** (Waste Electrical and Electronic Equipment Directive)

This product is not a piece of electrical or electronics equipment, and is therefore not governed by this regulation.
